Julian, Ky.
JULIAN, Dec. 11.—Thanksgiving is over and the turkeys are seen once more near the house.

Miss Bertha Barrow, of Owensboro, returned home last Wednesday, after a pleasant visit to her friend, Miss Edwards.

Miss Belle Randle, of Tenn., has been visiting Mrs. Gregory.

Charley Morman, of the H. H. school, spent Thanksgiving with his friend, Willie Stowe.

Mrs. Julia Baker entertained the young people Thanksgiving night, in honor of her guests, Misses Ora and Berta Baker, Anna Carver, Lucy Wolcott, Nettie Adams, Lottie Fort, and Fanny Cooper, of B. F. college. At 7:30 o'clock a most delicious supper was served. The tables were laden with everything good and artistically decorated with fruits and flowers. After supper the guests returned to their parlors, where all were highly entertained until 11:30 o'clock, when everyone left and felt that it was truly Thanksgiving.

J. T. Edwards, of Mayfield, Ky., spent last week with relatives in this neighborhood.

Miss Nellie Fox, of Howell, spent a day last week with friends at Prince Hill.

On the evening of the 5th, a pleasant party of young people were invited to the home of Mr. S. H. Claggett to meet Mr. Ward Claggett. The evening was spent very pleasantly in social conversation. At 9 o'clock the guests were invited into the dining room, where an elegant supper was served. After we had partaken of the sumptuous supper and

drank a toast to the health and happiness of the newly wedded pair and spent an hour most pleasantly in the parlors, we left wishing that Dan would soon treat us in like manner.

Food of the Future.

Dr. George Plumb, one of the chemists of the university of Chicago, says that the time is soon coming when hot water and food tablets will be the sole accoutrements of a kitchen. He says the essential food elements of a 1,200 pound steer can be got into an ordinary pill box. One of his tablets the size of a pea makes a large bowl of soup. A ration case of his planning, which weighed eight ounces, contained the following supply: Three tablets concentrated soups, equal to three quarts; four tablets beef, equal to six pounds; one tablet milk, equal to one pint; two tablets wheat, ten grits, equal to two pounds; one tablet egg food, equal to twelve eggs.
